

## The End is Near!

We're down to the final

# 100

TAMS 70488 was installed as original equipment in some HP, Agilent and Verigy systems, among others. It is the last PCI-GPIB card supported on HP-UX 10.20. The part number for the circuit board is 488-66501.

Unfortunately, due to obsoleted parts, the 488-66501 / 70488 card can no longer be manufactured. There are about 100 cards left and when they are gone, there won't be any more.

Obsolescence of the 488-66501 affects the following part numbers:

- 70488
- 80488
- 60488
- 70488ASP
- 0960-1010
- E3173-61020
- E3173-61021
- E7031-66500
- E7031-66502

Obsolescence of the 70488 will specifically impact HP-UX 10.20 systems that are unable to migrate to HP-UX 11i or Red Hat Linux.

**Don't wait until the 70488s are gone.  
Buy now to be sure you'll have the parts you need.**

**Part #:** 70488  
**Price:** \$1,145.00
